Sir:

In reply to the outstanding Office Action dated May 17, 2002, the following amendments and remarks are respectfully submitted in connection with the above-identified application.

In the Specification:

Please replace the paragraph on page 2, lines 18-24 with the following rewritten paragraph:

--In order to prevent the binding of biologically active proteins, such as IFN- α , to filters, bind containers and other surfaces, stabilizers are typically added to solutions containing the purified biologically active protein. In addition to the above short-term stabilizing effect, stabilizers will also prevent aggregation of the proteins and, thus, provide extended
